
P50 Series - Panel Mount Trackball, Protocol Output, Stainless Steel Trim

1. DESCRIPTION

The P50 Series mechanical trackballs are high specification modules available with a variety of electrical outputs and sealing options up to IP65.

This popular unit provides a smooth running solution for general control applications where precise cursor control is required at all times.

Manufactured using high grade stainless steel and plastic components, and incorporating the latest format of floating sealing technology, the P50 Trackball will provide many years of reliable cursor control for industrial, medical and keyboard applications.

The stainless steel trim also provides an extra degree of protection in public access points where vandal attacks are commonplace.

The P50 Series trackballs have been designed to be back of panel mounted as part of OEM keyboards and consoles.
